

Ocu-GLO Vision Supplement Information for Dogs

Ocu-GLO Rx™ vision supplement is a unique blend of anti-oxidants formulated by board-certified veterinary ophthalmologists to nutritionally support the health of the canine eye.

Ocu-GLO Rx

Is your dog having trouble seeing the ball when you throw it? Or does he have cataracts? If so, your dog could benefit from Ocu-GLO Rx, a pharmaceutical-grade vision supplement packed with antioxidants to support canine eye health.

Ocu-GLO may lessen symptoms of some canine eye diseases including cataracts, glaucoma, uveitis and progressive retinal degeneration.

It's rich antioxidant formula has overall health benefits.

It comes in two sizes of liquid gel caps - small and medium/large.

Degenerative eye diseases - glaucoma, cataracts, uveitis, and diabetes mellitus are common in older dogs. The loss of vision associated with these diseases can translate into a serious reduction in quality of life for your dog. If your dog has vision problems, Ocu-GLO Rx could help slow progression of the blindness. This antioxidant supplement was developed by veterinary ophthalmologists to support canine eye health. Ocu-GLO Rx contains a special blend of 12 antioxidants including: Grapeseed extract, high-potency Lutein, and Omega-3 fatty acids. This nutraceutical not only helps with eye health; your dog's entire system will benefit from the antioxidant blend. Choose two sizes of liquid gel caps based on your dog's size - small or medium/large.

Each bottle of Ocu-GLO Rx contains 90 capsules, which will last from one to three months, depending on the weight of your dog. Dosage is determined by weight:

- Under 5kg: 1 small formula capsule per day -one 90 capsule bottle lasts 90 days.
- Between 5-15kg: 1 med/large formula capsule per day- 90 capsules last 90 days.
- Between 15-30kg: 2 med/large formula capsules per day - 90 capsules last 45 days.
- Over 30kg: 3 med/large formula capsules per day - 90 capsules last 30 days.
- Giant breed dogs weighing over 48kg: 4 med/large formula capsules per day - bottle lasts 22 days.
